

## MARTIN HEALTH FOUNDATION

When you or someone you love is sick, having family and friends rally around to offer their support is both heartwarming and necessary! At Martin Health, the circle of people offering help when it's needed most includes our caring donors. While donors may never meet every person whose life they've touched, I know for a fact that your support has made a difference!

You see, I'm not only a nurse at Martin Health, I've also been a patient, caregiver and volunteer. During the nine months I spent at my husband's bedside and as a patient myself battling breast cancer, I experienced first-hand how the kindness of our donors touches each patient.

I know that countless lives have been changed – and saved – thanks to the generosity of our donors!

Facing a serious health issue is frightening whether you're 5 or 95. Knowing that the medical expertise, services and support you need to get well are right here - close to home - really does matter.

Please accept my thanks on behalf of all of us at Martin Health. What your kindness does for someone else can never be repaid, but will always be remembered!

Sincerely,  
Sandra L. Vadas
